Marxism and Anarchism, and Nature Loving – How to Teach Marxism in this Anarchist Youthful and Experimental Way

By Leon Gorbechove and Istabal Mesravan

I. Teach in a Marxist Organic Intellectual Fashion

Be an organic intellectual, express complex ideas in simpler ways.

II. Organise the Organic Intellectual

Now be organised and like a perspective.

III. Produce a Work of Art in Marxist Forms

I mean now produce a work of art in Marxist ways.

Note – Gorbechove here, 2026, I meant be really organic but also really natural. Be a natural person expressing spiritual nature, I mean natural expressions like “Let us be Frank now.”

Note II – Istabal here, I prefer being really “art and experimental, but also applied in Sirohi’s Marxist junkie Wanna ways.” I mean just be really artistic, and add in it a lot more of anarchism, but I also mean do this daily, like daily practice and teaching.
